# Why it Pays to Pay Cash

And Save Your Rebate Checks.

Because the average family will use more than Twenty-five Dollars per month in groceries, meats and bakery goods. At the present price of flour the checks are worth eighty-five cents, or about four per cent discount from our low prices, or interest on your money at the rate of about 45 per cent per year. You can't afford to run grocery bills. Better hire the money. The more you buy the more you save. You are saving twenty-five cents per barrel on flour. Sugar at fifteen pounds for \$1.00 with the rebate is costing less than 6 1/2c per pound. Our steam rendered lard at 10c per pound with rebate check is costing you about 9 1/2c. It pays to pay cash and save your rebate checks.
